Akshay Sharma

Full-Stack Software Engineer

Bangalore, Karnataka • akshaysharma2aug@gmail.com • +91 8088498674 • LinkedIn / GitHub

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer with 5+ years of experience designing and deploying scalable enterprise applications using Java, Spring Boot, Microservices, and ReactJS. Proven expertise in architecting high-performance backend systems, optimizing API latency, and building responsive, user-centric frontends. Strong background in financial services compliance, cloud deployments (AWS, Azure), and modern CI/CD DevOps pipelines.

PROFESSIONAL EXPERIENCE

Senior Software - Full Stack Engineer | TCS May 2026 – Present | Bangalore

- Developed full-stack enterprise applications integrating Spring Boot microservices with interactive ReactJS frontends.
- Implemented robust client-side validation rules, custom workflow logic, and optimized component state management.
- Deployed scalable containerized applications onto AWS Cloud using automated CI/CD pipelines.
- Built compliance monitoring solutions for Optum, ensuring high system reliability and data security.
- Optimized backend business logic and database queries to implement idempotent transaction handling.

Software Engineer - Java | Accenture Nov 2024 – Apr 2026 | Bangalore

- Designed and built enterprise backend services using Java and Spring Boot, supporting high-volume workflow automation.
- Managed cloud infrastructure and application lifecycles on Azure Cloud.
- Developed tracking and monitoring features to meet strict American Express compliance standards.
- Tuned and optimized complex SQL queries, successfully achieving a tight 50ms Service Level Objective (SLO).

System Engineer - Java | Infosys Jul 2021 – Nov 2024 | Bangalore

- Engineered production-grade Spring Boot microservices and RESTful APIs from scratch.
- Improved API response time by 25% through proactive performance profiling and database indexing.
- Conducted code reviews, design evaluations, and led internal knowledge transfer sessions on Spring Boot best practices.

KEY PROJECTS

PageTurn Bookstore — Cloud Native DevOps Platform Java, Spring Boot, React, AWS, K8s

- Designed a microservices-based e-commerce platform featuring a reactive storefront and secure REST APIs.
- Containerized frontend and backend services using multi-stage Docker builds.
- Automated build and deployment lifecycles using Jenkins CI/CD pipelines hosted on AWS EC2.
- Deployed services onto a Kubernetes cluster configured with Health Probes and Horizontal Pod Autoscalers (HPA).

Travel Website & Booking Portal Java, Spring Boot, Microservices, React

- Built full-stack booking architecture powered by decoupled backend microservices.
- Developed a responsive, modern user interface featuring custom CSS animations and dynamic itinerary layouts.

TECHNICAL SKILLS

Languages:	Java, JavaScript (ES6+), SQL
Frontend:	ReactJS, HTML5, CSS3, Responsive Web Design
Backend & Frameworks:	Spring Boot, Spring MVC, Microservices, REST APIs
Cloud & DevOps:	AWS, Azure, Docker, Kubernetes, Jenkins, Terraform, CI/CD
Databases & Messaging:	MySQL, MongoDB, Kafka

EDUCATION & CERTIFICATIONS

B.Tech - Electrical & Electronics Engineering | Guru Gobind Science / GGSIPU (2015–2019) — *CGPA: 8.2/10*
Certifications: AWS Certified Solutions Architect – Associate | Infosys Java Readability Certification
